2 FISTED POKER 21 is designed to increase your casino's profitability in two ways:

1. By allowing the players to make an additional bonus bet. The bonus is based on an approximate jackpot of 10.00%.
2. It enhances your casino's profitability by increasing the number of hands played per hour by approximately 25%. This creates a higher win percentage over existing blackjack games.

More decisions, more revenue!

2 FISTED POKER 21 allows 40% more hands per round, than a conventional blackjack table. This means that you increased your floor space by four blackjack positions without adding additional blackjack tables.

The more **2 FISTED POKER 21** games your casino puts on the floor, the more decisions are made per hour. This translates into higher profits per existing square foot of casino floor space.

Player Friendly, Added Excitement

2 FISTED POKER 21 allows the players to play two blackjack hands instead of one when the casino is busy. That, culminated with the four card bonus, adds additional excitement for the players.
