

Bonusing, Loyalty and Jackpot System

For Live and Electronic Table Games

Presented by: Gaming Network

- Overview
- The Platform and associated products
- Table Game Bonusing & ROI
- Patented Bonusing Features
- Management, Accounting and Data

What is the G3?

- The G3 is a linkable bonusing, jackpot & loyalty server based system.
- Some of the main features include:
 - Mystery Bonusing (random & progressive)
 - Jackpot Management (random & progressive)
 - LCD-based Multimedia
- The G3 is protected by ten (10) patents in more than fifty (50) countries.

The Basic Components

- **Personal Bet Manager**

- Using credits and/or chips
- Multi-betting capability
- Player and Dealer side Betting
- Bets can be automatically renewed for increased game speed

- **Dealer Control Console**

- User Friendly
- Manages all aspects of the game
- Secure e-Key access

- **LCD Based Multimedia**

- Publicity
- Casino Promotions
- Television Programming

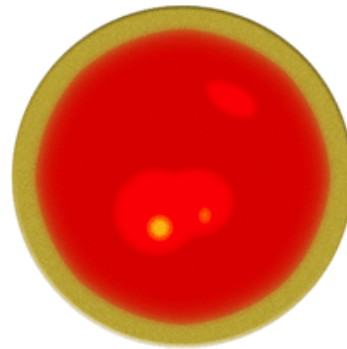

A Quantum Leap in Bonusing

Patented technology and features replace existing legacy technology and adds new **KEY** revenue drivers:

- Multiple side betting (multiple credits and denomination flexibility)
- Dealer hand side betting
- Mystery Bonusing & Random Generated Prizes
- Multiple Level Progressives, Progressive & Random Jackpots
- Data, statistics, dealer performance and accounting
- Multimedia, connectivity and global bonusing solutions
- Remote and Back Betting Solutions

**1st Generation
Side Betting:**
Coin Slot

2nd Generation Side Betting:
Illuminated Coin Spot

3rd Generation Side Betting:
G3 Multiple Bet Manager

The Personal Bet Manager

- **Multiple Chip/credit wagering**

- Multi-Bet allows players to wager more chips/credits on the side bet. Winnings are paid directly to the credit bank.
- Automatically multiplies side bet winnings by the number of bets made.

- **Dealer Hand Betting**

- Allows players to bet on the dealer's hand.

- **Sleek look and design**

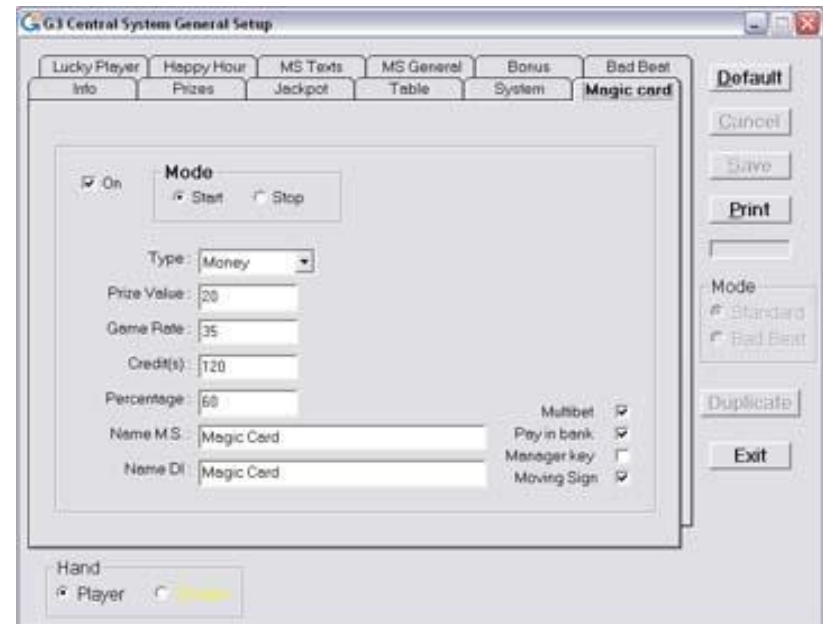

Mystery Prizes

The MAGIC CARD

- A randomly selected card appears on the display.
- If the Magic Card is in your hand, and you've placed a side bet, you win.

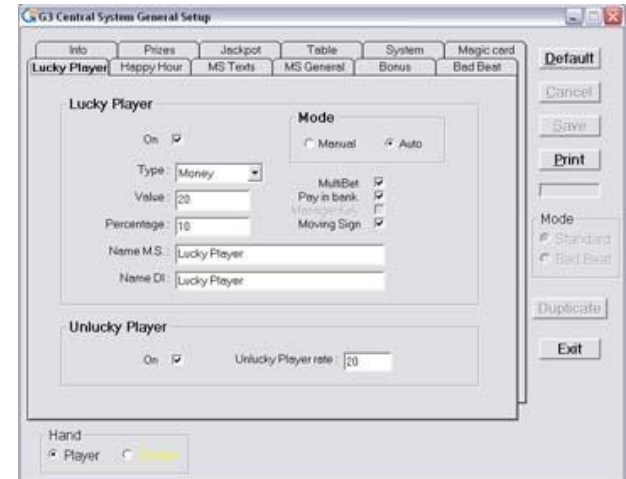

Automated Random Rewards

The LUCKY PLAYER

- Randomly drawn position
- If you are seated at the selected position, and you've placed a side bet, you win the randomly drawn prize.

Automated Random Rewards

The LUCKY DEALER

- A Lucky Dealer message randomly appears on the display
- If you placed a side bet on the dealer, you win
- All players are paid in proportion to the number of credits they have bet
- There can be more than one player paid when Lucky Dealer comes up
- If dealer hits Progressive Jackpot, multiple player bets are paid out according to casino rules

| PLAYER | AMOUNT | BET | TOTAL WIN |
|--------|---------|-----|-----------|
| 1 | \$20.00 | X3 | \$60.00 |
| 2 | \$20.00 | X2 | \$40.00 |
| 3 | \$20.00 | X2 | \$40.00 |
| 6 | \$20.00 | X1 | \$20.00 |
| 7 | \$20.00 | X5 | \$100.00 |

The Lucky Dealer mystery prize pays the player in proportion to the number of credits he bet on the hand.

Attraction Rewards

FREE PLAY!

- Why have players wait to play? Send them right into the thick of the action by offering them free credits in their bank at any enabled table.
- It can take the shape of special promotions such as “2 for 1” credits during time-limited periods (i.e. Happy Hour), special events or even during slower business periods to entice play.
- Inviting your patrons to try the side betting system, will have them sit at your tables for longer periods of time as the are encouraged to continue playing as Free Play credit rewards appear in their credit banks.

Incentive Rewards

The **CASINO BONUS** (Automated Credit Redemption)

- The Casino Bonus is an automated “bounce back” promotion that provides an award based on coin-in participation per player.
- This is a low pay/high frequency reward -- i.e. award a free credit for every 10 credits bet.
- Instills the idea that the more you play, the more free credits you get, the more you have fun playing.
- Can also be rigged to randomly award a low payout amount to each player at any given table to encourage them to learn to use (or keep using) the side betting system.

Loyalty Rewards

– The Loyalty Bonus Edition

- Maximize your G3's potential by adding the **LOYALTY BONUS option**.
- The 5 LED lights will light up progressively as the player bets.
- Every Loyalty Bonus level achieved will multiply the fixed payout prizes accordingly (i.e. x1, x2, x3, x4 or x5).
- If the player stops betting or decreases betting, his loyalty levels will drop. This feature encourages the player to keep betting.

– Upgradeable option

- The standard version of the Personal Bet Manager does not come with the LOYALTY BONUS option.

Linking, WAP & TCP/IP Solutions

- **Mega Jackpots**

- The TCP/IP Game Server can link all your table games to create central jackpots.
- Table games can be linked together, within a pit, a casino or even across multiple casinos!
- Connectivity is offered in wired or wireless solutions

All wirelessly connected to one Super Jackpot!

LCD-Based Multimedia

- **Television Programming, Publicity and Promotions**
 - The system can display table limits, payout charts, television programming or events, publicity, promotions as well as visual and/or sound effects
